

# Building Blocks

AN INITIATIVE BY DURGA INDIA (I'M EVERY WOMAN TRUST)

## What is the Idea Behind Building Blocks?

Our programme, Building Blocks, builds back power and purpose in the lives of adolescents who have had very vulnerable childhoods because of which they are unable to lead complete lives. As the right to safe childhood is a constitutional right, Durga enables young persons we work with, in shaping their thinking towards values so they see themselves as equal participants in society.

The programme aims towards bringing a needle shift in confidence and self-worth, enabling adolescent boys and girls to identify inappropriate behaviour and deter harassment in their own spaces.

## Who do we work with?

In this programme we work with youngsters in Shelter Homes, both Government and Private as well as in Government schools.

Interventions are designed assuming that the interactive, experiential, and participatory format would help build confidence and self-worth in them and work towards a brighter future.

**For the first time, I realised I have rights as a child!**
