

# Corporate Engagements

AN INITIATIVE BY DURGA INDIA (I'M EVERY WOMAN TRUST)

## Why are safe workplaces the need of the hour?

Durga's interventions are designed for small, medium, or large organizations who want to maximize the potential of their women talent force by way of fostering their safety. They are also designed to ensure awareness among women about their rights to safe working conditions and foster women's wellbeing & safety at the workplace.

With a strong focus on ensuring deterrence of harassment and ensuring safe, nurturing and enabling workplaces, our corporate engagements are built around the idea of Gender Justice in public spaces, essentially workspaces.

## Our Mission

To foster a better relationship and equity amongst employees; for women to not only be aware of their rights but also be in a workspace where other individuals are committed to maintaining a healthy work environment.

## Our Vision

Ensuring that women are safe from harassment in their place of work. Ensuring deterrence of harassment and safe, nurturing and enabling workplaces in any profession that women want to choose to work in.
